

REAL TIME DOCSIS® ANALYZER

## Solve every DOCSIS puzzle

XRA enables efficient troubleshooting of DOCSIS issues in the lab and field. It captures and analyzes downstream and upstream packets in real-time, using a non-intrusive approach. This provides instant feedback on signal quality and capture count, accelerating time to resolution or time to market.

### Saves Time & Money

- User friendly
- Real-time insights
- Faster time to resolution

### World-class Support

- We have a heart
- Continuous updates
- Exceptional support is the result of our in-depth understanding, combined with the daily use of XRA by our world-renowned DOCSIS experts

95%  
SUPPORT RENEWAL RATE

### Exceptionally Versatile

- Real-time demodulation
- Ingeniously designed with automatic self-overwrite functionality
- Everything is in Wireshark where we enhanced it with extra parameters

Elevating **the happiness level** of your customer by proactively identifying and resolving issues at lightning speed.

More Than

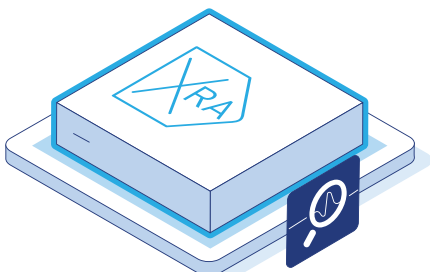

50%

of tier 1, 2 & 3 **operators in Europe & the USA** use our testing products

**EMERGENCY**

REAL TIME DOCSIS® ANALYZER

## XRA as a service

We offer XRA as a service for swift resolution of urgent DOCSIS problems. Leverage our expertise and resources for efficient problemsolving when time is crucial.

# We're humbled to be trusted by the best.

Advancing the network of today, paving the network of tomorrow.

## Let's advance networks together

We would welcome the opportunity to work with you to optimize, innovate and assure the robustness of your networks. And we put our heart into it, our work is our passion.
